Crack Keyword Researcher Pro. so we'll see what they have to offer. This was a good show overall, and I'd probably go back for more. Except for the Dr. Horrible bomb. That was kind of sad to see, and something I wouldn't want to see again. The thing that pissed me off about "The Pro" and "The Return" is the show never let me go for the allotted two weeks in between. It was kind of disappointing for me. On Doctor Who it's almost a given that I'll watch an episode, or two, in a row and be able to flip back and forth between it and The Simpsons while I'm sitting on my couch eating my takeout. Actually, that's kind of what it's like watching The Simpsons. If you watch one episode, you'll always find yourself flipping back to a "classic" moment from an earlier season. It's not that you're sad about the ending because it's the end, it's that you're sad about ending because you love the show that much. I don't know how I feel about The Venture Bros. I never understood the show, and I know I was too young to watch it when I did, but I find it really hard to figure out what I thought about the show. There are only so many ways to make a man out of a genetically superior uber-alpha, and I understand why almost all the plots I liked were pretty bad because of how the characters were written. I also don't like the show, and I don't know why. I never cared about the characters. I know they're not supposed to.
