### **What's New in the?**

SVERDYSH Icon Changer is a free utility that aims at modifying the icons on the desktop and windows. One can apply modification either using a drag-n-drop or by selecting files from the local folder. Now the interface is looking sexy and stylish. You can completely change your desktop theme to remove the dull and boring design. The app was created by Gavin which was specially developed for Windows 8. Even the icon changes. This application allows you to change your icons on the taskbar, desktop and quick launch for the Windows 7 and 8. The app has a simple and easy to use interface and the functionality is also very easy to use. Now, you can customize your desktop from any window so that you can just like to set your own desired icons. All you need to do is, run the software on your system and click on the 'Set the desktop image' option and you will be able to set up your desired icons that you want to change on the Windows desktop. The application is available in two versions. Gavin Softwares has brought out this application for the modification of the icons on the desktop for the Windows 7 and 8. The application allows you to change the desktop icons in Windows 7 as well as in Windows 8 which is a very useful and beneficial application. The interface is also highly simple to use and even the function is very easy to use. The main feature of the application is that, it allows you to set up the icon and the quick launch shortcuts to the desired software without a problem. Folders and files in the application can be modified to suit your needs. With this application, you can just change the icons of your system which will make the whole system look trendy and attractive as you desire. The application is very useful for those people who want to change the icons on their desktop but don't know how to go about it. The application is really nice and I think every user should have a version of it at their disposal for the Windows desktop. It will change the folder icon which is placed on the panel on the taskbar or place a new folder icon on the desktop. You can also change the name of the folder as well and can use the text box to change it. It also has a help feature for every option that you would like to set up. Ever wondered why one person has a heart icon on their computer and the other person has a heart symbol. Now, they both have the same heart
