Cimatron E11 Torrent for PC (Windows)Exercise training in children with cardiac disease: effects of early versus late onset. This study reports on the effects of early versus late onset of exercise training in children with cardiac disease. Twenty-two children (aged 5.5 to 13.2 years) with a variety of congenital and acquired heart defects participated in a 6-month program of endurance exercise training. Seventeen children participated in the program for 6 months, of which 12 performed at least 2 additional months of follow-up. Endurance capacity was assessed by a progressive cycle ergometer test. Plasma lactate levels were used as a measure of endurance capacity during progressive exercise. Exercise parameters included maximal oxygen uptake (VO2max), cardiorespiratory and metabolic responses to exercise, and incidence of acute deconditioning. Endurance capacity improved in all subjects following the program. In the first 6 months of the program, VO2max and maximal workload increased approximately 50% in the early-onset group and approximately 37% in the late-onset group. At least two additional months of follow-up were associated with a further approximate 50% increase in endurance capacity in the early-onset group, but no further increase in the late-onset group. Over the entire study period, oxygen uptake at maximal exercise was related to the initial endurance capacity (Vo2max). Early-onset exercise training results in a greater aerobic capacity than late-onset training, as measured in milliliters of oxygen per minute. In children with cardiac disease, a general program of long-term endurance training may improve aerobic capacity, but does not produce an untoward degree of deconditioning as measured by maximal exercise testing.(ABSTRACT TRUNCATED AT 250 WORDS)Rafail Arisov Rafail Sergeevich Arisov (; born 21 January 1985 in Yaroslavl) is a Russian professional footballer of Ossetian descent who currently plays as a defender for the Russian side FC Neftekhimik Nizhnekamsk. He is a defender but can also play as a right-back. Career Arisov made his professional debut in the Russian Premier League on 24 July 2009 for FC Anzhi Makhachkala in a game against FC Rostov. He played in the 2007 UEFA European Under-19 Football Championship. Honours Club Lokomotiv Moscow Russian
