_____ Japanese Trailer- It's been a long time since we have released a new action RPG! We've begun development of a new project, and have decided to expand its market to wider audiences by releasing it worldwide. Our new game, Land Between, allows you to go off alone or with a friend to explore this vast land. We're now introducing the new world to you! _____ Thanks to all of you for the support and your interest in Aldra and Aldra2! Your faith in us has not been misplaced. We've been able to release the game with a high quality that we had originally hoped for and are incredibly happy with this result. This project has put a lot of pressure on our game programmers and other staff, but we've been pushed together by your untiring efforts. We've now begun the search for a new development environment, but please be assured that we will always put out a game that exceeds your expectations. We sincerely ask for your continued support for Land Between. Now, let's open a new world of Aldra to you all. GAME FUNCTIONALITY • The Effects of Equipment Attacks and attack powers are defined by the amount and type of equipment you equip. • Items and Equipment Items and equipment are obtained through in-game events or purchased with gold in the Item Mall. • Infinity Runes Infinity Runes are items obtained by engaging in content in the world, the main character can receive limited edition items when they're equipped. • Battle Management In battle, you can use items to choose your attack strategy, and all equipment is changed over time. GAME STRUCTURE • The Game World The game world is divided into the main world and the Runespace. The main world is a map where the player can roam freely. The Rune space is a map where individual runes can be placed and in which the player can explore. • The Main World In the main world, you will encounter various monsters, and there will also be events that occur on a daily, weekly, and monthly basis. • Main World Monsters • Dual-Wield Monsters • Space Monsters • Half-Monster Dungeons • Rune Spaces • First-Time Dungeon Opening As you continue playing, Rune spaces open to you. You can explore the Rune spaces and fight monsters to obtain items. While exploring, you will also be able to find monsters that are stronger than the average monsters. • Rest Area • Undiscovered-Resource Dungeons Undiscovered-Resource Dungeons are dungeon rooms that the adventurers from the story had not seen yet. Therefore, they do not have a powerful weapon to face monsters. GAME PLAY • Monsters Monsters are divided into five categories: dual-wield, space, half-monster, undiscovered resource, and strong monsters. 1. Dual-Wield Monsters • Category: Dual-Wield Monsters • Toughness: 7.0 • Category: Dual-Wield Monsters • Toughness: 7.0 • Category: Dual-Wield Monsters • Toughness: 5.5 • Category: Dual-Wield Monsters • Toughness: 4.0 • Category: Dual-Wield Monsters • Toughness: 2.0 • Category: Dual-Wield Monsters • Toughness: 5.5 • Category: Space Monsters • Toughness: 6.0 • Category: Space Monsters • Toughness:

Risk factors for delayed hypersensitivity and rhinitis in patients with nasal polyps. To assess the clinical and allergological risk factors for delayed hypersensitivity and rhinitis in patients with nasal polyps. A total of 117 consecutive patients with nasal polyps were questioned about nasal symptoms and reactions to nasal challenges. The risk factors for delayed hypersensitivity were assessed. Immunoglobulin E levels, skin test results, and nasal provocation challenge were related to delayed hypersensitivity. Differences between patients with and without delayed hypersensitivity were compared. One hundred nine of 117 patients (92%) had a history of nasal symptoms. Thirty-two patients (28%) were positive in skin prick tests, and 19 of 31 skin test-positive patients were also positive in the nasal provocation test. All 19 patients with positive skin test and positive nasal provocation test demonstrated histamine-induced nasal swelling. Fifteen of 20 patients (75%) with histamine-induced nasal swelling in the nasal provocation test had a positive delayed hypersensitivity. The risk factors for the presence of positive delayed hypersensitivity were: age \geq 50 years ($p = 0.009$), personal or familial atopy ($p = 0.026$), and current use of antiallergic drugs ($p = 0.044$). In patients with nasal polyps, the presence of positive delayed hypersensitivity in skin testing is closely associated with positive results in the nasal provocation test. It is therefore important that patients with nasal polyps who are atopic and present with symptoms of allergy or are currently using antiallergic drugs undergo delayed hypersensitivity testing.

The 5 Best and Worst Movies of the Decade You can guess what this article is about. These movies are five of the worst. 5. Indiana Jones and the Kingdom of the Crystal Skull Indiana Jones and the Kingdom of the Crystal Skull, which opened on May 11, 2008, was the final film in the Indiana Jones franchise created by George Lucas, the genius behind the Star Wars franchise. And it was terrible. In the opening scene, after Indy sets a fucking clock on fire with a torch, Indy faces down a pack of Nazis in an alley. It's not long before he pulls out his knife and stabs one of the bad guys. Then, Indy slashes the other one in the face, and kills him. That's the theme of the entire movie. Indy's favorite thing to do is stab people. A typical scene: Indy jumps through a window while accompanied by a badass sword fight, then
