## THE NEW FANTASY ACTION RPG.

Hello there I'm interested in the game It should be fun to play, interesting characters to work togetherQ: Is there more to a camera trap than having an image? What makes a camera trap different from a regular camera? Is this only a matter of having a digital image when your doing a manual recording of noise and shooting to a computer? A: A normal camera is not the same as a digital camera. When we shoot a picture using a normal film camera, what it means is that we have to pull the film out of the camera, put it in a developing lab and wait for the picture to be taken. Any error in placement or roll will leave the picture undeveloped. An analogous example is carrying a cellphone with a camera app. The camera is always there, but you can't activate it until you push the button. This means the person must leave the place where they are and go somewhere else in order to activate their phone to have it take a picture. In the case of a digital camera, we don't have to do anything. The images are already in our computer after they are taken. Today, the International Air Transport Association (IATA) forecasted a
