## **What's new in Elden Ring:**

**I found a Dead link to this amazing App in the App Store. It seems it was a Game that was Crowd funded. Any way, I found it fun! [Fluidly Flowing Water] Okay, I have to admit something, I'm a bit partial to this game. Not only can you play on an iPhone/iPod Touch but you can also play on Android devices. I see a window of opportunity here. 1. Make a version of the game that will play on Android devices as well as iPhones and iPod Touch devices. 2. Add some exciting and new features to the project. 3. Perhaps sell it as a freemium app so you can make money on Android devices. 4. Sell parts of the app for space still available. 5. Complete version of the game. 6. Profit! To make this happen you need a lot of programmers. I mean a LOT of programmers to do the coding work. Also, I would think that having someone that knows Java and Android well would help a lot. Hopefully someone will jump into that project. A while back, I bought a rather large SSD drive. The 256gb version is the largest size Apple supports with their SSD volumes. Right now, I keep my drive size simple - 1/2 Red, 1/2 Green, 1/2 Blue, and 2/2 Yellow. I didn't have any extra space so I opted for 2/2 Yellow. Lauch is our friend. Don't you read the tips you get on faqbot.... Anyway, I have the game running on my iPad. Before I got the iPad, it was all one color, but now I can change the spectrum to any part that is off. I have set the background color to 2/2 and color to Red and Green. Too bad I don't know how to change these settings, but I can change the spectrum to Green when I turn the iPad to face the sun. No problem...it's the free option with pretty much every game nowadays. It's not like you paid \$40+ for it. It's free to play in a fashion while you are actually playing it. You can buy things in the game for real life money later. However, with free you can get some things that people would never think of it because they are quite high end or more compatible with pc/console games so to speak. This obviously depends on your category of game.**

Shop Text / Store Designer You've thought about it, you've talked about it, you've explored your innermost thoughts and finally, it is time to start your next project. You look for ideas, a theme, a character, inspiration, some kind of a gift for your favorite person and you just can't think of anything. In short, the pleasure of approaching your project from inside out is gone, all you can do is sitting at your pc and typing until your arm falls off. Here is where the Shop Text / Store Designer will come in handy.
