What's New In?

= Cool and attractive Interface Kidspainter is an easy to use drawing program for children. It has a slick and intuitive interface that is very intuitive to use. The toolbars have animations which show what each button does. For example, when you press the draw button on the toolbar, a black circle and two white circles appear around the black one. The same animation happens when you click on erase or rotate. It is important that you can see what is happening when using a drawing program for children. If not then it will be hard for kids to learn how to

use a drawing program. It is important to use a layering system when using a drawing program for children. With Kidspainter you can use different paper types for the canvas. You can draw on a plain paper first, then use the same brush tool on the canvas. You can see that the paper did not disappear and that the new paper is now on top. The same technique can be used to cover the old papers. You can make the paper disappear by pressing the button. You can also save your drawings on a canvas and reload it later. The paper with the drawings on it disappears and a new paper is shown. = Fun Paint Kidspainter offers the different functions for drawing on a blank canvas. You can draw animals, insects, food and different scenes which can be used to create fun paintings. Kids will especially like the cute cartoon cartoon theme. It is also important that the colors are vibrant and not fade out when you switch between the different brushes. It would be a boring experience if the colors are not vibrant. You can also save your drawings on the canvas and reload it later. = Great Brush Library The brush library offers a lot of tools to help the kids to create various pictures. You can choose from a bird, house, frog, cupcake, mouse, dog, cat, and train. You can also choose a paintbrush, pen, pencil, eraser, paper, and the like. When you press the brush tool, you can pick a color from a palette which will then appear on the blank canvas. As the kids start using the program, they will soon start to choose their own colors. You can save their drawings on the canvas and reload it later. = Great Sound Effects You can choose between the different sound effects which are attached to various events such as the erase, draw, and brush tool. = Fun Design The UI design is cute and attractive. You will like the nice red icons
