What are your needs? Are there any other requirements? Do you have any ideas about what would be the best solution for your needs? The primary thing I need is this: A search box on the navigation bar that also lets me add products to my cart and then the contents of the cart are added to my shopping cart. The problem is that I've not been able to find a php shopping cart plugin that does this. I've found plenty of items that can log in a user's session but I can't find a plugin for adding the products from the session to the shopping cart. Has anyone found a shopping cart that does this in php? A: You can use this: "" Other than that, just Google for a tutorial. // (C) Copyright John Maddock 2005. // Use, modification and distribution are subject to the // Boost Software License, Version 1.0.
