TRANSCEND Reset Key

Desde la capacidad de compartir la informacion a traves de Internet, y gracias a su estructura 3D, los dispositivos USB de Transcend ofrecen una versatilidad masiva para diferentes aplicaciones industrial y OEM. Durante una prueba en condiciones poco favorables, los dispositivos USB de Transcend colocaron 5 años en la frontera de 600 MB/s y 6 años en la frontera de 1 GB/s. Este dato permite hacer conocimientos sobre la resistencia a la corrupción de los dispositivos USB de Transcend. To ensure the utmost longevity and reliability, Transcend's industrial-grade USB flash drive JetFlash 280T is built with 96-layer 3D NAND flash and the USB 3.1 Gen 1 interface. Its compact form factor, high compatibility, and outstanding performance are ideal for embedded applications in the medical, military, and automation sectors. With Transcend's UFD Security Toolbox software, password can be set to secure the drive. Users can even get a One-time Password (OTP) through SMS message on the user's phone to unlock the drive, which ensures higher data security. The industrial-grade JetFlash 280T USB flash drive from Transcend is designed for industrial and OEM applications. During a reliability test under harsh conditions, Transcend's JetFlash 280T USB drives were able to operate for 5 years at the 600 MB/s transfer rate and 6 years at the 1 GB/s transfer rate. This data indicates that the USB drives from Transcend are remarkably resistant to data corruption. Transcend's industrial-grade USB flash drive JetFlash 280T is designed for industrial and OEM applications. Its compact form factor, high compatibility, and outstanding performance are ideal for embedded applications in the medical, military, and automation sectors. Transcend's UFD Security Toolbox software provides users with protection against data loss. The built-in LDPC ECC function guarantees enhanced reliability, making them ideal for write-intensive applications such as medical devices, surveillance systems, and POS terminals.

An ideal choice for intensive applications like tablets, Transcend's microSDXC / SDHC Class 4 Series 430T is designed to maximise performance and durability. Incorporated LDPC ECC technology ensures greater reliability, which makes it ideal for high-end applications like mobile devices, surveillance and POS terminals. The sleek slim design and lightning fast speeds of Transcend's microSDXC / SDHC Class 4 Series 430T make it an ideal choice for both tablets and mobile devices. With 3D NAND flash memory, speeds of up to 400MB/s ensure smooth and reliable transfers, even for intensive applications. The embedded LDPC ECC technology means greater reliability and suitability for high-end applications like mobile devices,

surveillance and POS terminals. Compact and handy, Transcend's microSDXC / SDHC Class 4 Series 430T is a superfast class 4 SDHC and SDXC storage card for tablets and mobile devices. With 3D NAND flash memory and a USB 3.1 interface, it can achieve speeds of up to 400MB/s for fast transfers, allowing you to enjoy all your media content. Enjoy a slim, no-compromise design with power-saving technology and lightning fast data transfers from Transcend's microSDXC / SDHC Class 4 Series 430T. With 3D NAND flash memory, Class 4 card can achieve a storage capacity of up to 128GB. The sleek slim design and lightning fast speeds of Transcend's microSDXC / SDHC Class 4 Series 430T make it an ideal choice for both tablets and mobile devices. With 3D NAND flash memory, speeds of up to 400MB/s

ensure smooth and reliable transfers, even for intensive applications. The embedded LDPC ECC technology means greater reliability and suitability for high-end applications like mobile devices, surveillance and POS terminals. 5ec8ef588b
