The BlackMagic Pocket Cinema Camera is one of the few handsets that I have that uses high-speed "full-speed USB" (or bus 3.0) for the connectivity. Sony's A65 uses specifically a USB 3.0 port for external control of its camera. Having a high-speed port takes things like external flash drives and external controllers for videocams to another level. In some ways, USB 3.0 is almost like FireWire 800 – it's fast. However, the higher speeds can cause problems: For instance, in my review of Sony A65, I mentioned that gigabit ethernet, gigabit ethernet crossover cables, and high-speed ethernet cables help free up the USB 3.0 bus. This is because they're faster than USB 3.0. I'm no ethernet guru by any means, but I would imagine that the same can be said about high-speed ethernet. There's no harm in trying a high-speed ethernet cable (USB 3.0 works with 10/125 gigabit ethernet cabling is in common use, at least in most North American and Western European cities). High-speed ethernet and gigabit ethernet cameras are now the norm. If you've got one of these devices, chances are pretty good that it will want to use fast ethernet. In fact, the BlackMagic Pocket Cinema Camera is a welcome addition to my arsenal, and gives me one of the best mobile filmmaking devices that's known to man. Video shooters who like the BlackBerry 10 platform have already tried out BlackMagic Pocket Cinema Camera, obviously liking what they see. With the BlackMagic Pocket Cinema Camera, I can record 4K, at up to 60fps and burst shooting at up to 120fps. There's no crazy noise, and the fast frame rate is perfect for filming. I've been using it throughout the Spring and Summer months, and I'll say that I've barely had to put a drop of weight on it. The device is very solid and has excellent ergonomics. It's much smaller than other BlackMagic Pocket Cameras, at just 11 x 9 x 2 centimeters. This size has one drawback: You can't take the BlackMagic Pocket Cinema Camera out of its carrying bag (which is a bit worrisome) when traveling with it on airplanes.
